1. Qualitative Information on Semi-annual Financial Results

(1) Overview of Operating Results for the Semi-annual Period under Review

During the six months ended September 30, 2024 (from April 1, 2024 to September 30, 2024), the Japanese economy showed a gradual recovery trend against the backdrop of an improvement in income with high wage hike rates. Meanwhile, the future outlook has remained unclear due to tense global trends such as situations between Russia and Ukraine and in the Middle East, as well as the depreciation of the yen and rising prices.

In the food service industry, the number of customers was steadily recovering thanks to a recovery in inbound consumption in addition to an increase in people's traffic caused by the normalization of economic activities. However, the environment surrounding business remained harsh as consumers' awareness of saving increased due to continuously rising prices in addition to soaring purchase prices of foodstuffs, utility costs, labor costs, and logistics costs.

Under these circumstances, while firmly keeping the viewpoint of putting ourselves in customers' places, the Group is striving to improve basic value of the food service "deliciousness and hospitality" and to "pursue to provide values by food" aiming for good health both in "mind and body" with a basic strategy of "Co-creation (together) and Co-running" based on the Medium-term Management Plan "Together". In addition, we will endeavor to achieve the "material and spiritual richness" of our human resources, our greatest management resource, and support employees so that they can feel both "worth living" and "rewarding" in their works. In this way, we will remain committed to improving the value we provide to our customers and our corporate value.

During the six months ended September 30, 2024, we worked on activities such as opening 11 new restaurants and promoting introduction of digital equipment, as well as increasing wages and starting salaries of new graduates beginning from April for the purpose of ensuring and retaining human resources, and setting all-restaurant closure days with the aim of improving a working environment.
